

ALI HAMZA

Full Stack Developer | Laravel | React Native

Lahore, Pakistan | miangdpp@gmail.com | +92 311 0282687 | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience designing, developing, and deploying high-performance web and mobile applications using Laravel, Next.js, and React Native. Proven track record managing full-lifecycle projects, from UI/UX design and backend API architecture to VPS deployment, with a focus on e-commerce automation and service-booking platforms.

TECHNICAL SKILLS

- Languages & Frameworks: PHP (Laravel), JavaScript (ES6+), React Native, Next.js, Node.js
- Frontend & Styling: Tailwind CSS, Bootstrap, HTML5, CSS3, jQuery
- Backend & Database: RESTful API Development, MySQL, JSON Handling, Payment Gateway Integration (Stripe)
- Tools & DevOps: Git, OpenCart (Extension Development), VPS Server Management, App Store Deployment

PROFESSIONAL EXPERIENCE

Full Stack Developer — Fixora Lab

Nov 2025 – Present

- Designed and developed the Alwatan Engineering platform using Laravel and Tailwind CSS with a modern architectural aesthetic.
- Engineered the Khair Al-Hadi e-commerce storefront, including custom order tracking and a high-performance checkout flow.
- Manage full-stack web development and technical strategy for multiple client brands.

Full Stack Developer — iExtend Labs

Jul 2020 – Nov 2025

- Developed and maintained dynamic web and mobile applications using Laravel, Next.js, and React Native.
- Integrated and optimized RESTful APIs, improving system performance and scalability.
- Designed responsive, user-friendly interfaces using Tailwind CSS and Bootstrap.
- Managed Git-based version control and deployment pipelines for efficient solution delivery.

KEY PROJECTS

Lipslay — Home Service Booking Platform

- Built a tripartite ecosystem of Customer, Staff, and Driver applications using Laravel, Next.js, and React Native.
- Implemented zone-based service filtering, real-time staff availability tracking, and automated assignments.
- Developed a real-time quotation bidding system with live status updates.

Alwatan Engineering — Consultancy Platform

- Built a high-performance digital presence for an engineering and construction consultancy using Laravel and Tailwind CSS.
- Focused on responsive design and fast load times to showcase complex project portfolios.

Khair Al-Hadi — Islamic E-commerce Store

- Developed a full-scale e-commerce platform in Laravel for lifestyle and religious products.
- Integrated secure checkout, automated order tracking, and inventory management.

OpenCart Mobile & Extension Ecosystem

- Developed custom OpenCart extensions and performed system migrations to modern versions.
- Built React Native storefront and admin apps with real-time data synchronization.

EDUCATION

Bachelor of Science in Computer Science (BSCS) — NCBA&E University

2019 – 2023
